DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. The rejection of Claim 12 under 35 U.S.C. 112, first paragraph, is withdrawn because of the amendment filed 12/4/2009.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 22 and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

a) Claim 22: it appears that an "and" should be before "pseudo plastic"; in addition, it is not clear what "for water-borne systems" modifies - gums or all the species.

Art Unit: 1792

b) Claim 28: it appears that ethoxylated ether is a surfactant, and therefore the Markush group is confusing. If only one choice is allowed, and ethoxylated ether was chosen, it would not make sense because ethoxylated ether is a surfactant.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. The rejection of Claims 12-26 and 34-41 and 43-44 under 35 U.S.C. 103(a) as being unpatentable over Dutt (4847116) is withdrawn because of the amendment and arguments filed 12/4/2009.

7. The rejection of Claims 27-30 and 42 under 35 U.S.C. 103(a) as being unpatentable over Dutt (4847116) taken in view of Eklund et al (5298124) is withdrawn because of the amendment and arguments filed 12/4/2009.

8. Claims 12-30 and 34-44 are rejected under 35 U.S.C. 103(a) as being unpatentable over Today (2416232).

'232 teaches impregnating a felted fabric (1:34-2:26) with a butadiene resin emulsion, that also contains wetting agents (i.e. surfactant 8:55-64), a material such as natural gum (9:11-20), an acrylic resin as a stabilizing agent (i.e. antissettling agent 9:57-66), and other resins such as vinyl acetate (9:67-10:21). The fabric may be calendared (11:1-7; Example 1). The treated fabric may be heated above the softening point of the resin, causing the particles to flow and weld (12:15-37).

'232 does not teach the size of the particles, but does state that the particles are "very fine" (12:1).

'232 does not teach the polymer add-on amount or the amounts of the various components in the treating mixture, but it would have been obvious to one of ordinary skill in the art to have optimized the treating composition as the make-up of such a composition is known to be important to the eventual properties of the treated fabric.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
